ABOUT US

Industrial Drives, Inc. located in Portsmouth, Virginia is a certified small woman owned business. We are a bearing and power transmission distributor. We specialize in custom fabrication of machined parts and also provide gearbox and pump repair.

We are proud to represent many of today's leading and most recognized product names. Our wide customer base gives us the experience and product knowledge to solve your problems quickly. Our vast network of domestic and import suppliers can give you the edge when sourcing parts for your product. Our focus is total customer satisfaction and our priority is to provide the right product at the right price when and where you need it.

As an independent custom manufacturer we can offer quick and efficient solutions to your production and inventory needs. We hope you will enjoy your visit to our site and take the time to visit our many vendor links that provide information and specifications for many of the products we represent.

BUSINESS PROFILE

Industrial Drives, Inc. is a top distributor of a variety of bearings and power transmission components from industry leading manufacturers. What sets us apart is our value added custom fabrication of machine parts and superior gearbox and pump repair service. With an in-house machine shop, we truly are your one-stop-shop for industrial solutions.

In business since 1991, our knowledgeable sales team has a vast amount of application experience. Which allows us to provide product selection assistance, timely service, and competitive prices. Whether you need a standard part, a specific brand, or a custom assembly, we can work with you to determine a solution.

Industrial Drives is your partner of choice for custom manufactured projects. We are able to assist you in drafting solutions utilizing our machining and welding fabrication capabilities. Our professional shop team has a commitment to quality and on-time delivery. We are here to provide you with a value-driven solution that EXCEEDS your expectations.
